Instructions for use:

General use safety footwear for industrial-type floors or loose ground, for indoor or outdoor use against intermediate risks equipped with a puncture-proof sole and a protective toe cap providing protection against shocks equivalent to 200 joules and against crushing risks under a maximum 1500 daN load.

Limits to use:

Our guarantee can only be applied to optimal-condition shoes, being used without adding up any accessories likely to generate a change in protection, or it cannot be applied when its use is not specified in the current instructions for use. Not to be used for protection against further hazards than defined above. Not to be used within the scope of any other field of activity than that defined in the above-mentioned instructions. This footwear contains no substances known to cause allergic reactions in people with allergic sensitivities.

Instructions for storage:

To be stored in its original packing in a dry place, sheltered from sunlight.

Instructions for cleaning / maintenance:

After any use, leave unpacked shoes in a ventilated place away from any heat source. To remove clay and dust, use a non metallic brush. For stains, use a wet cloth with soap if necessary. For shoe polishing, use a standard product. It is recommended to clean the shoe thoroughly after use and leave it to air to prevent foul odour and maintain hygiene.

Performances :

Comply with the requirements of the European Directive 89/686, special for ergonomics, harmlessness, comfort, airing and flexibility and with the requirements of the European standards **EN 345-I** and **IS 15298-Part II**.
